Terms of Sale

All cattle sell per the terms and conditions of their respected Registered Breed Standards. Bred cattle sell guaranteed as bred as stated in the sale book and/or on the supplement sheet for 21 days following the sale. If cattle are found open within 21 days of the sale please call Nick Dwyer ASAP for an adjustment to be made. Terms of sale are cash, good check with proper ID, and/or Visa/Mastercard with a 3% service fee applied on top of the purchase price. All announcements made from the auction block or printed on the supplement sheet sale weekend will take precedence over statements made in this catalog. If any issues arise with your purchases call Nick for adjustments. No load out will occur without payment being received.

Registration Papers

Please leave all transfer requests with the sale clerks at the time of check out. Papers will begin being transferred 2 weeks after the sale and can be expected in hand within a month of sale day. Cattle will not be transferred or loaded until payment is received in full. All cattle sold as registered will be accompanied by a registration certificate, if cattle are sold as Club Calves or listed as unregistered/commercial no papers will be made. All donors with embryos/pregnancies selling have been DNA parent verified. If you do not receive your papers within one month of the sale contact Nick Dwyer to make sure your paperwork is in order.

Sight Unseen Buyer Guarantee

If you would like to make a purchase but cannot make it to look at the cattle prior to the sale please contact any member of the sales staff for an honest opinion of the cattle/genetics being offered. We stand behind our word and the word of those hired to represent this offering. However we cannot guarantee cattle/genetics purchased sight unseen online. If you want to know about them feel free to call. Please call in early to setup phone bidding assistance. This will be a fast paced sale so please be ready to bid prior to the sale beginning.

Herd Health

All cattle sold will carry health papers for interstate travel anywhere in the Continental US. Canadian purchases will require extra paperwork and testing that work can be done but will require extra time and may incur an additional cost to the buyer. Please contact Nick if you are in Canada and wish to make purchases. Sale Veterinarian in charge of all Health Papers: Huston Vet Service, LLC 500 IL-600 Box 715, Roseville IL 61473, Dwyer & Dwyer LLC as well as individual consignors are not responsible for health papers.

Trucking

We will assist you as much as possible with your trucking needs. A trailer will be headed to West Virginia shortly after the sale and can make stops in Indiana, & Ohio along the way. Please contact us ahead of the sale if you are interested in trucking so we can arrange the most cost effective method possible.

Insurance

We strongly encourage everyone to take out some form of Insurance for their purchases to insure nothing happens from sale time to the time they are settled into your operation. Insurance options will be available at the settlement table after the sale.

Liability

Anyone attending the sale attends at their own risk. Dwyer & Dwyer LLC, Lowderman Auctions, our guest consignors, and the sale personnel will not be held responsible for any injury, loss, or health risk incurred by those attending the sale.

Sexed Semen

We cannot 100% guarantee that cattle bred to sexed semen will have calves of that sex. We do however guarantee sexed semen was used.

Online Bidding

Real time online bidding available through www.cci.live. Please login 12-24 hours prior to the sale beginning to setup your bidder number. If you experience internet troubles during the sale please be ready to contact a member of the sales staff to secure phone bidding assistance. Always have a backup plan if you're really interested in a specific lot.

Retained Genetics

The members consigning cattle in this sale are continuing to invest heavily in the use of IVF technology and are committed to selecting and sourcing the top females in their respective breeds. Due to this and our commitment to offer our very best we will reserve the right to one flush of a minimum of 8 transferable embryos on every open heifer being offered. If we elect to do the flush work we will pay the buyer \$1000 to help cover the cost of transport and delay in any breeding plans. Contact Nick Dwyer if you have questions regarding this policy.

Cattle available for viewing at the farms prior to Sale Time...

Welcome to the Offering...

Where to begin, that's been the story of 2023 at Dwyer Cattle as we've seen 2 vastly different versions of summer to this point. Started April through June as the driest summer on record and culling was looking like a certainty for nearly everyone in the region, then July hit and for once July turned into May showers and our pastures, crops, and yards all turned as lush as they had ever been for this time of year. During the heart of the drought for us I was listening to the DV Market Flash and Corbett Wall made a comment "The drought only exists in areas that don't know what a drought is", while this was tough to hear in a drought it did hit me how accurate he was and made me think of all the hardships those stockman went through that actually have experienced a real drought. With the rain came the end of culling season and the chance to take part in one of the most historic years in the beef industry, knowing full well those good times were made by the sacrifices made by those who experienced the hardest of times.

As I sit here and type this letter it seems like every week we are seeing new highs in the fat cattle and feeder cattle trade, and as history would point out that means the cow prices are soon to start soaring. I've always been a firm believer that this business is at it's best when all facets are clicking and making a living and right now that seems to be the case. In the show cattle arena the Simmental Junior Nationals experienced an all time record high attendance, and after spending a few days there I can tell you that was the deepest and best set of Simmental cattle I had ever seen. If you saw that set and didn't get excited to try and create one good enough to stand at the top of the class there you might need to check what you're doing, as class after class was incredible.

When it comes to this year's sale I made a point to concentrate this year's offering toward youth and thus the Open Heifer & Bred Heifer divisions have grown in numbers as well as quality this year. One thing I'm very proud of this year is the amount of cattle being offered who go back to females purchased through this sale. Beauty Secret 917 was the top selling cow in the first sale and she dropped some serious hitters into this year's group, Crystal Gayle highlighted last year and she's put some dimes into this lineup as well. As always I can't do this sale on my own so I've hit the road and located the best cattle and genetics I could find. I'd like to thank each and every consignor for allowing me to merchandise their cattle alongside my own. As you go through this book please understand that this offering is comprised of the top end from each operation so by coming to this sale you are saving a tremendous amount of road time. I've hand picked these cattle for a reason and I feel each of them have the potential to propel a program in the right direction.

I would like to take a moment to THANK each and everyone who has purchased cattle and genetics from this sale over the last few years. Each year I strive to set the bar a little higher than the year before and last year's set of calves saw more winners than ever before. Those wins in the show ring are 100% attributed to the families who purchased that stock, and I'm very happy that you put in the hours to get those cattle looking their finest at the shows.

On a personal note Jenn and I, have some big changes coming our way this fall as we are expecting our first child in Late September. I'm really excited about the group of fall bred cattle we are offering in the sale but I'm not going to lie the most important heifer coming is our own this fall. I can't wait to start that chapter in life and I'm happy to have Jenn along for the ride.

With that I look forward to getting the chance to talk to each of you as sale time approaches and look forward to showcasing this year's offering. We will have videos available on all of the cattle at CCI as well as Dwyer Cattle online. If you'd like to view the cattle prior to sale weekend let me know and I can show them to you at the farm in Roseville, IL.

Thank you,
Nick Dwyer

We could write a book about this cow or simply let the next few pages of the catalog do the talking. Crystal Gayle was the top selling female of the 2022 Next Generation FF-Sale commanding \$70,000 for 1/2 Interest. As you can see by the next few spreads in the catalog this female flat works! Relentless daughters have been successfully shown and are in ET production for the Welsh & Roberts Families. A Remedy daughter won multiple shows in Wisconsin this season. And the Bankroll mating produced a bull who highlights this year's offering. Last year we offered pregnancies by Gayle and one purchased by Brian Stortz sold off the farm for \$15,000 a few weeks ago!

Safe AI 11/29/22 to THSF Lover Boy with a Heifer Calf

A female destined for big things! A daughter of the great Crystal Gayle, and a full sibling to the Roberts & Welsh Families highly successful show females. If you're looking to put one into ET production to propel your program to the next level here's the one for you. You'll love the added frame, dead level design, and structural correctness she brings to the pasture. Due to calve shortly after the sale to Lover Boy with a heifer calf inside! No guesswork involved!

Herd Sire - Semen Checked - Speas Farms to retain 1/3
Semen Interest - Buyer will retain full possession

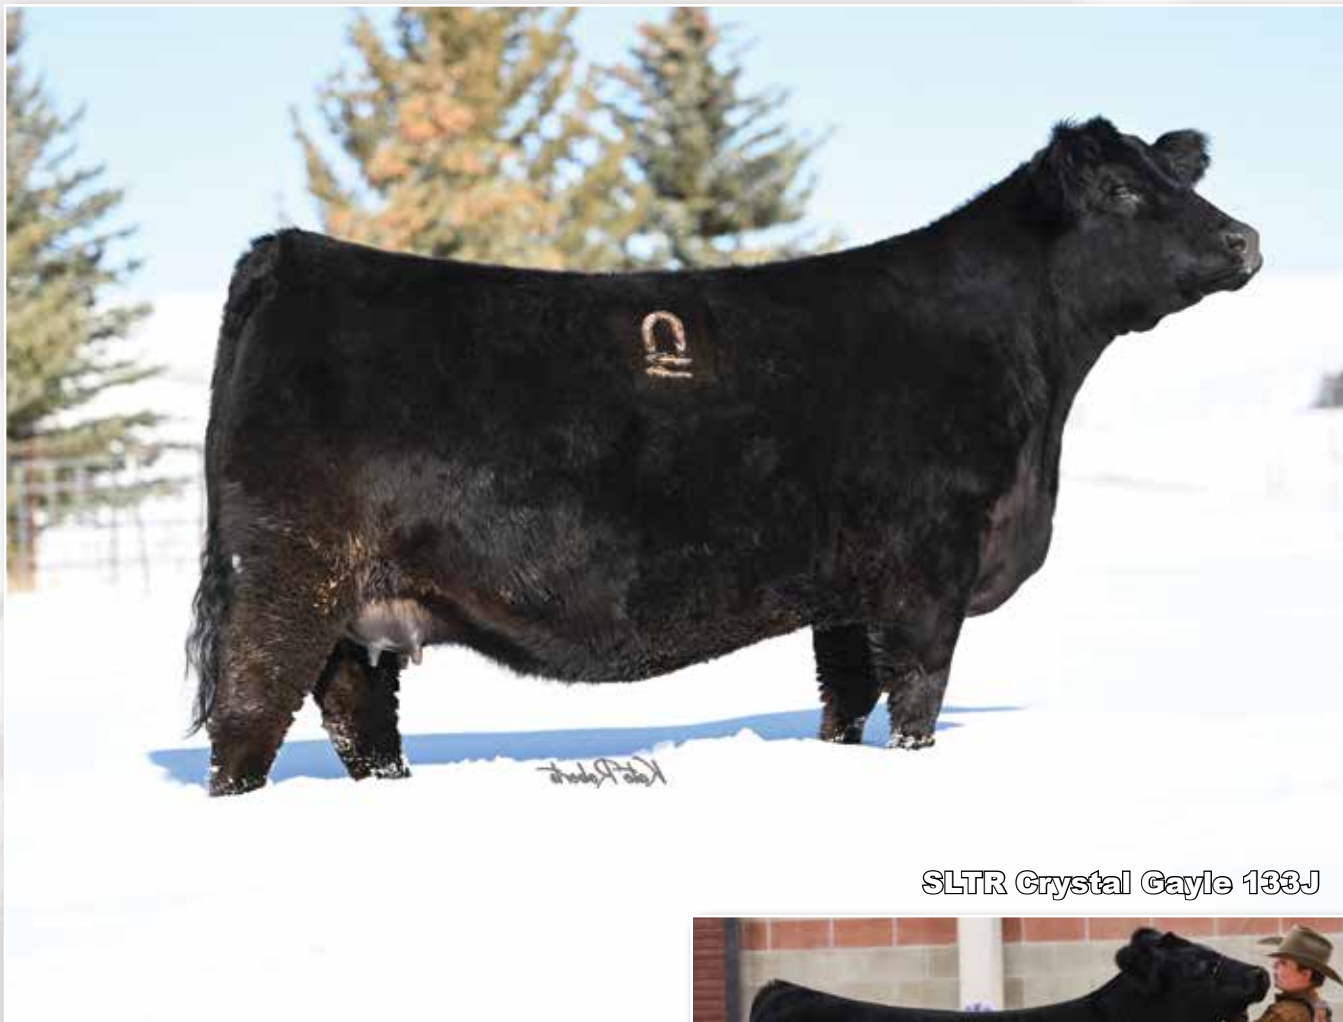

SFIS Crystal Gayle

In this day and age of IVF reverse sort flushing it is so difficult to find herd sires by the most dominating females in the breed today! Here is your opportunity to maximize the genetic potential of SFIS Crystal Gayle into your program by allowing her most dominate son to date to run in your program. SFIS Unstoppable checks all the boxes when it comes to a prolific stud. Potent Cow Family, Powerful Masculine Look, Massive Hoof, Large Scrotal, and a Killer Design on the profile. This bull will be on display and shown at the 2023 Iowa State Fair and we look forward to showcasing this bull in Des Moines. If agreed upon by the new buyer Speas Farms Inc would be open to retaining and showing this bull through Kansas City as well as a trip to Fort Worth as well. SFIS Unstoppable is a full sibling to the Top Selling heifer at the 2023 Iowa Beef Expo sale, as well as a maternal sibling to many show winners and future donors highlighted throughout this sale book. We are offering full possession and 2/3 semen interest in this stud and we will retain 1/3 semen interest. We have already utilized this bull in our program and look forward to continuing his usage in the years to come.

CE	BW	WW	YW	Milk	DOC	Stay	API	TI
9.0	1.1	66.0	89.6	15.3	4.6	13.1	115.4	68.8

Offering the right to flush 133J. Guarantee 8 transferable embryos with a cap of 12. Work to be done after April 2024.

The goal with cattle as well as in life is to make the Next Generation better, and I believe 133J is on her way to doing just that. The truly special ones separate themselves from the group early on and 133J was just that type of female. Early in 2021 she established herself as the leader of the group and went on to become the high seller in this sale in 2021. Since entering her stay at Roberts Cattle in Montana she has continued her dominance. Earning admirers after winning her Division at the National Western, Champion Simmental Female at the NILE, and now gracing the pastures in Absarokee, MT where she has developed into a big league sort of female. One look at the picture and you'll notice she's an outlier for a purebred Simmental and one who is just getting started in the most important part of her career. This is your opportunity to tie into one of the truly special ones at the start of her career, and represents the opportunity to propel your program forward for generations to come. 133J will calve early March and as soon as she cleans out from that she will be available to flush. Roberts Cattle is guaranteeing 8 transferable embryos with a cap of 12 embryos on the flush. Buyer will be responsible to pay 1/2 of the gavel price after the sale with the other 1/2 due after the flush work is complete. Buyer is responsible for semen costs as well as flush fees associated with the flush.

Open Heifer

300L has already secured a banner earning the Champion Division I Female at this year's AJSA National Classic for Lindy Kane. Here is a female who really reminds me of the Welsh Families' Gayle daughter who earned the Reserve Champion Honors at the Illinois State Fair Open Show. This female is so long necked and extreme in her makeup, she comes with the big swoop to her rib cage, and added substance of bone and a solid hoof design.

Open Heifer

The 303L female has been gaining her share of fans the last few weeks as this female comes with an extra shot of hair and even more turn to her rib cage than her sisters. This female is one of the bigger footed daughters of Gayle in this year's offering and one who comes with a puppy dog attitude. I really like the neck set and added features this one brings to the table.

Open Heifer

305L could be one of the most ELITE National level females we have ran through this sale in recent years. She's a full sibling to last year's top selling female who was selected at \$55,000 by Minnaert & Sullivan Farms. Another full sibling was the \$200K+ female who topped the Griswold Classic Sale and went to Sullivan Farms who later earned Supreme Champion Honors at the 2023 OKC Cattleman's Congress. 305L is big league haired, bold in her rib cage, has the added raw bone needed to compete at a high level, and is flawless when set in motion. I guarantee you won't be disappointed making the trip to see this female alone!

Here's a pair of Pays to Believe daughters by 41D who I feel have what it takes to make some elite breeding stock. Study the foot and bone, three dimensional design, and substance this pair brings to the table and I'm sure you'll agree these two could leave behind a tremendous cow herd in future years. The 311L female comes with an extra shot of substance to her and is one I really like for her well balanced easy fleshing design. This female was crazy good haired early on and it's starting to come back right now, I'd expect her to be fully haired up and ready to hit the fall show circuit. The Joker faced baldy female 316L is simply one who always give you a good look. This female is moderate in her frame but a bit more attractive when you get her head up and pulled into her show stance. This is a new mating on 41D and one that will be very limited so get in early on this pair of Pays to Believe daughters.

41D continues to stir a buzz in the Simmental Industry from producing the top sellers in the Next Generation Foundation Female Sale to the Griswold Classic to the Mountain Classic Sale. Her daughters are highly sought after across the country. In 2023 Sara Sullivan earned Supreme Champion Honors at the OKC Cattlemen's Congress with her Relentless x 41D daughter. Here is your opportunity to tie into the same league of female for your own program. Embryos sell in packages of 3, guarantee 1 pregnancy per package.

An exciting chance to tie into a new and a proven mating by the great F221. As you can see by her daughters in this year's sale F221 is stamping the right kind across multiple sire groups. In last year's Foundation Female Sale the Webel Family sold a SAM daughter for over \$10K, who was shown very successfully during the 2023 show season. F221 is a direct daughter of the great Alley 247Y. Guarantee one pregnancy per mating if work is done by a certified embryologist.

When we flushed F221 to Limitless, we were excited to see the style he brought to the table to match up with the maternal power on the cow side. One look at this one and her flush mate brother (catch him at the IL State Fair) and the combination certainly clicked. Already kid broke, this heifer was the Reserve Champion in Division 1 of the AJSA National Classic Percentage Heifer Show in Des Moines. Look for her and her sister at the Illinois State Fair Open barns.

A favorite of many early visitors to the farm 317L comes as no secret to those who know the cow family backing her. Hoya Saxa was one of the premier Simmental females to ever walk into the show ring and a female who was ahead of her era. A full sibling to 317L won the Triple Crown for the Paulsen, Udel, & Noble crews. This particular female comes to auction as one of the most powerfully built females who carries her added mass on a sound platform. This female is first year 4-H'er tame and yet still hits her pose like a heifer who knows she's a good one! Be sure to check out her video and make sure she is on your must see list sale weekend.

3015A was purchased through this sale a few year's back from PB Simmentals and to say she's earned her keep is an understatement. In the spring of 2023 two of her sons sired by Relentless highlighted the Felt Farms Brand of Excellence Sale, along with that pair a pregnancy was sold in this sale last fall by Pays to Believe to Rutledge Farms and you can call Brandon and ask him about how excited he was about stealing that one away from us! For this season we have a pair of these Pays to Believe daughters to offer as well as a pair of bulls born this spring who will be highly sought after in the Felt Farms bull sale. 306L is the farm favorite amongst the crew for her calm disposition, rugged design, and eye catching good looks. While the 1317L female is my personal pick as she's the hard kind to replicate, I really like this one's moderate frame size, added foot, raw bone, and chiseled front 1/3. You pick and choose but I can assure you that you'll be happy with either female in this pair.

Last year we offered up 1/2 interest in SJF Charlie along with a great group of her daughters, we were very fortunate to have landed Kane Cattle Genetics and Brent Blender as partners on SJF Charlie in the years to come. For this year's sale we are offering two Relentless daughters by Charlie who we feel have all the fundamentals covered when it comes to high quality seed stock. This duo come with added foot and bone, a three dimensional design rarely found in the Relentless sire group, as well as a high quality skeletal build. The L1 female is the powerhouse of the duo and the one that we should really keep back to help replace momma. You'll love her added spring of rib and easy keeping design. While the L2 female is the eye-catcher of this duo who comes with that presence about her that's hard to beat. We'll let you pick and choose between these two but I can assure you that the choice on who the best generator will be in the years to come is going to be a hard one.

A female you could write a book about and one I feel could have some serious value as a GENERATOR of quality. The Phyllis 423 cow line has created numerous national Champion Angus females for the Scheetz and Stertzbach programs over the years and her mating to SAM unlocks the door to producing ELITE purebred Simmentals from this cow family in just a few quick generations. You'll love her power that transmits from her skull all the way to her massive pin set. Here is a female who carries a high degree of skeletal mass onto a fault free structural package. If you're serious about making a splash in the percentage world and breeding up to make ELITE level purebreds this one needs to be on your short list.

One of the barn favorites for everyone who has helped to work this set of calves. It's not very often one this good is also first year 4-H'er tame. Lainey is a true GENERATOR in her build, wide based, power across her top, and yet so sound when set in motion. Her power stems from poll to tail head and yet she ties into her shoulder with a maternal look about her. I can only imagine the possibilities creating purebreds off of this breeding piece. Her dam 184C was purchased through a past FF Sale and has placed a open heifer into this sale every year since I bought her in 2016! Daughters include a Division winner at Junior Nationals for the Glick family of Illinois!

Beauty Secret "917" was the top selling cow of the 2021 Next Generation Foundation Female Sale as well as the dam of the dominate Bayer Family heifer of the 2020 show season. 917 has been cranking out the good ones for years with a daughter who also highlighted the Robert's Families Northern Advantage Sale two seasons ago. Listed here is your opportunity to tie into this cow line by choosing between one of the top young open heifers in this offering or heifer pregnancies by this stellar donor.

The 321L female is one you need to see in person to fully appreciate, her video shows off her dramatic sweep to her rib cage as well as stellar look on the profile, but you really need to get behind this one to see just how wide bodied and good structured she is in person. Be sure you look up her video as this one isn't just a pretty picture, she's real deal quality.

The heifer pregnancies being offered are a no miss option, to date the Relentless sire group has clicked on "917" as well as any and these matings are full siblings in blood to the Bayer show heifer. These three recips all raised calves this season at Dwyer Cattle and the recips all have good attitudes and milk really well. We are able to offer these recips as her embryos are really sticky and we are retaining more of this mating for our own herd.

 Recip Cow from Wilkerson Farms

A mating straight from the heart of the famed Sandeen Donna tree. 8302 was the \$110,000 high seller in the 2019 Buildin' A Brand Sale who generated a \$140,000 Fort Knox daughter in the 2021 Buildin' A Brand Sale as well as a \$81,000 daughter by Quantum Leap who was very successfully shown by the Henderson Family of Iowa. Relentless has clicked extremely well on the Sandeen Donna tribe in recent years and produced the 1316 female who is currently a leading donor for the Ferguson program of Ohio. Jumpstart your 2024 calf crop and your program for decades to come with this stellar confirmed heifer pregnancy!

To date 1316 has checked all the boxes as a prototypic donor female. 1316 sold for \$130,000 in the 2021 Buildin' A Brand Sale for Sandeen Genetics and was prized for her incredible performance, powerful build, and elite level structure. A picture really doesn't do this female justice as it is hard to display her three dimensional build on paper. Scott Sandeen has said many times this could be the female to replace the original 8386 Donna. Here is your chance to jump aboard the 1316 train early in her production career. We truly believe these two matings could be incredible and offer the type of build to work in a wide variety of operations. Guarantee one pregnancy per package.

Red is the new Black when it comes to Simmentals these days and 6026D is rising towards the tops of the who's who list of Red Donors in the breed today. Her dam Miss Sequoia Y770 is the dam of the Griswold & Werning sire Bank On It amongst countless other high sellers over the years. Last year we offered pregnancies by 6026 in this sale and the reports from that offering has been phenomenal. For this year we are offering matings by Relentless & Quantum Leap. These matings should be extremely potent and profitable. For this sale season we will offer a really high quality group of 6026D daughters in our own sale this October. Guarantee one pregnancy per package.

What a pair of Angus beauties by Forever Lady 8108! The 167 fall bred female was shown this summer by Lindy Kane and earned Champion Angus honors at quite a few local shows this season. She's a full sibling to a \$14K female sold by Rutledge Farms to Chris Collins of Oklahoma two sale seasons ago. You'll love the power, bold rib shape, and killer front end as well as her picture perfect udder design. This female sells due to calve on 9/11 so she'll be ready to enter right into the donor pen shortly after arriving on your farm. The 309L female is a result of a new mating on 8108 and one that I think worked extremely well. This female was pictured about two weeks after weaning so her best days are ahead but as you can see this one comes stamped with a high quality look and a sound made design.

Open Heifer

An exciting opportunity to tie into an impressive pair of Angus females by the great Forever Lady 517. 517 was named the Reserve Grand Female in the Junior Show at the Illinois Preview show and earned numerous Breed and Supreme honors during her show career. 517 is one of the stouter featured, structurally correct daughters of First Class x 5001 in the country. Being offered in this sale are daughters by Casino and Good Times, two of the more dominate sires in this era. The Casino daughter comes with a freakish amount of body, bone, and substance. You'll love her ideal hair type, athleticism at the ground, and powerful hoof. The daughter by Good Times comes a bit more moderate in terms of frame but doesn't give up any substance or dimension. Be sure you are on hand to look over this impressive pair of Angus females.

Frontier Gal 6995 was Champion Fall Calf at the 2017 Illinois State Fair and also won as a Senior Yearling the following year. She then sold for a commanding \$95,000 the day after the show. 6995 is a direct daughter of the leading Express Ranch Donor Frontier Gal 3734, and National Champion for Kali West. We have averaged just over \$14,000 with the high seller being a \$40,000 Primo daughter being shown this season by the Scheetz Family. That female has been Champion or Reserve Angus at several shows this Jackpot season. Folks this donor is no miss and we have 11 daughters out of her at the house that will all sell this fall. The Angus and Maine Angus have been elite level stock. Confirmed heifer pregnancy due 1/28/24. Recip will be at the sale site on sale weekend.

A trio of daughters backed by the "Cash Cow" at PB Simmentals. We've marketed as well as retained multiple daughters by 144B2 over the years and her mating to SAM might be her best and most consistent to date. We lead off with the L1 daughter who is arguably the greenest at picture time but when you study her skeleton, true base width, and style she could be the best show prospect from this trio when it's all said and done.

Open Heifer

You're not a Simmental breeder unless you have one really good spotted cow in the pasture. 645D is simply built different and has the perfect disposition. Monster footed, raw boned, good haired, and power at every angle. Her first calf was a \$5500 bull by THSF Lover Boy, and standing at side you'll see this year's calf by Mainstay who is one of the youngest in the sale but doesn't lack for quality. We bred 645D up a little different this year going for a Maintainer calf for 2024, I've really liked the Icon's I've seen and have high hopes for this mating.

Due 9/30/23 to WHF Double Up

This halter broke royally bred heifer is difficult to part with as she is one of the few daughters out of my Sandeen Donna 4838 donor. You will find Krown on sale day as she has the look to go with her famous pedigree. I'm biased but there is an awful lot of like about her. She is very complete and has that "Look at Me" presence about her. When you study this female on paper for your next donor candidate she reads in the top 10% of the breed for CE and BW which will lend her well if you choose to mate her as a big league bull raiser. Or let her phenotypic design push your program forward in the female arena.

Safe AI 12/2/22 to Ruby SWC Battle Cry

I picked this cow up as a bred heifer from Schooley Cattle in Iowa and she's done a tremendous job raising easy selling bulls over the years. In 2020, 2021, & 2022 her bull calves by Innovator, Turnpike, & Cowboy Cut have all found their way to the Felt Farms Brand of Excellence Sale and have sold extremely well. If you like them moderate, easy keeping, stout made, and eye-appealing be sure this standout is on your must see list. I really think her mating to Battle Cry could be just the ticket but honestly she's never had a lower end calf regardless of the mating used.

Safe AI 12/2/22 to Wheatland Man O' War

A stunning baldy who is easy on the eyes and productive in the pasture. You'll love her udder conformation, sound build, and easy fleshing design. We've had great luck with these Man O' War calves the last two breeding seasons and the only reason you don't see them in the sale is we've kept them back to develop into cows. A daughter by LLSF Mainstay sold very well by 200E in the 2021 Foxy Ladies Female Sale.

3E might just be the prettiest uddered female on the entire farm and is one that has certainly earned her keep over the years. An own daughter of the great 5001 donor and captivating when set in motion. This huge footed, stout featured female raised an Innovator daughter in 2021 who sold very well as a bred heifer in the Foxy Ladies sale last fall, as well as a Relentless bull who sold in the Powerline program in the 2020 calf crop. Take a look at the Mainstay progeny offered in this sale and I think you'll agree this mating could be exciting!

Due 2/6/24 to W/C Bankroll 811D

Here's a golden opportunity to tie into a female with the cow family and production record to earn her a trip straight to the donor pen. This baldy female was the high selling Simmental out of the 2017 Tree Lane Farms Sale, and goes back to the dam of TL Ledger & TL Bottomline along with a whole host of dominate females. We have already flushed her 4 times to SAM, Bankroll, Profit, & Copacetic where she has averaged 8 embryos. Thus far we have averaged \$6500 on private treaty farm sales on her SAM progeny with more calves left to sell. During her own show career she was campaigned by Grace Lemenager where she earned Champion Simmental honors at a few shows in 2017 & 2018. Here's a 6 year old cow I shouldn't be parting with and one that has a ton of gas left in the tank!

Due 1/9/24 to OMF Epic Heifer Sexed Semen

We purchased a set of embryos out of the Windy Ridge Simmentals embryo sale a few years ago and went 3 for 3, so we're sharing in the success. This is a no holes easy keeping kind of cow with a Hall of Fame set of genetics behind her. Executive Order, United, 8543U, Broker, 3C Melody - True Pedigree Builders! This heifer is super quiet and would be an asset to any program. Bred up early for an OMF Epic right out of the gate.

Due 2/21/24 to Mr SR 71 Right Now

The third entry into the sale from the up and coming F221 Alley Donor cow, this one is in the bred heifer division. Elegant and stylish, this one keeps you coming back during pasture walks just to look at her. A full sibling to the Lot 15 open heifer, here is a genetic gem to latch onto in this one.

Safe AI 4/24/23 to FELT Perseverance

The Yes Melt cow family has been a solid producer for us over the years. Many maternal sisters to this female have sold through this sale as show heifers. The Double Up bred is big bodied, good looking and sound. I think that she will continue the tradition of producing high quality show cattle. I think that her Felt Perseverance calf will not disappoint.

Safe AI 4/1/23 FELT Perseverance

Here's one that'll stop you in your tracks sale weekend. Backed by the great C39 donor female at Bar QH as well as Copacetic on the top side, J908 has been a head turner since day one. Added performance, high quality skeletal build, with added depth of body and true muscle shape about her. Look for this one to lay down and have a high end baldy by Perseverance.

Safe AI 4/21/23 Schooley Standout

Another powerful performance oriented daughter of C39! J911 is stunning on the profile and comes deep bodied, long across her hip, and dead level across her top. This female ties high out of her shoulder and will make some impressive progeny in the near future. We bred her up early to the new exciting Schooley sire Standout!

A high quality Angus female who stems from the famed Double Diamond Angus Barbara cow family. This daughter of Township is ideal in her hoof design, maternal in her makeup and comes with an impressive set of EPD data points to back up her good looks. If you like females with a sweet disposition, a powerful hip, and ultra correct skeletal design this female is for you. We've loved our Iconic calves on our first calvers and thus we mated her that way for her first calf. Be sure to check out her video this one is flat good.

What a way to close out a catalog! Here is one of the most consistent and potent matings in the Angus Industry today. 4B's Princess donor produced the 2022 Supreme Champion Female at the Illinois State Fair for the Lemanager Family, a full sibling also highlighted the Angus division of the Diva's & Donors Sale commanding over \$100K. I was at 4B early this spring and the litter mates on the ground for the 2023 sale season are truly elite. Offering 1 pregnancy as well as 2 packages of 3 IVF Heifer embryos. Guarantee one pregnancy per mating.
